

### **6966c**

The Weller 6966C was designed for assembly and repair applications such as shrink tubing, shrink wrap encapsulation, epoxy curing, cooling and drying components, bending and forming plastics, reflow soldering, expanding frozen fasteners, hot-melt adhesive reflow and vinyl repair.

#### **Weller 6966C Features:**

- UL and cUL listed
- Amperage: 2.2
- Power: 250 Watt
- Temperature range: 705° to 800°
- Voltage: 120 VAC, 60 Hz
- Air flow: cfm <2
- Air velocity: 250' per minute
- 6966C Includes:
  - [6956](#) - 1 Heat gun reflector 1/2"
  - [6957](#) - 1 Heat gun large reflector 1-1/2"
  - [6958](#) - 1 Reducing baffle
  - [6964](#) - 1 Precision reflector .20"
