

CSI906

An SMT rework station & soldering station in one handy unit! Perfect for shops & labs dealing with today's SMT board designs. O.E.M. manufactured just for Circuit Specialists Inc., so we can offer the best price possible! This multi-purpose station is perfect for all your surface mount and thru-hole requirements. The ESD safe soldering iron uses a ceramic heating element for fast heat up & stable temperature control. A separate aluminum constructed soldering iron holder is included (not shown in picture). The comfort grip handle makes it easy to use all day, while the easy-off connector makes it convenient to move out of the way when not using, or easy to replace if needed. The temperature is controlled by a centrally located knob. The hot air soldering is controlled by two adjustable knobs which allow you to achieve a temperature range from 100°C to 500°C / 212°F to 932°F. One knob is for air flow, the other for the temperature. **Comes complete with 3 hot air nozzles.** You get a 2.5mm, (straight single, item # A1124) 4.4mm (straight single, item # A1130), and a 9.0mm nozzle (straight single, item # A1197). **This is a fantastic value!**
