

### **CW2000**

The CircuitWorks® CW2000 is a Nickel Conductive Pen dispenser for economically drawing conductive traces, jumpers, and shielding with precision and control.

#### **Circuitworks CW2000 Features:**

- Rapidly creates conductive nickel traces and repairs traces
- Easy and economical to use
- Valved pen tip for easy applications
- Good electrical conductivity
- Dries in minutes at room temperature
- Solderless linking of components
- EMI Shielding and grounding
- Quick Prototype Modification
- RoHS Compliant
- 9 gram pen
